### Top Keywords Found

| Keyword     | In Title | In Description | In Heading |
|-------------|----------|----------------|------------|
| care        | ✗        | ✗              | ✗          |
| baby        | ✗        | ✗              | ✗          |
| diapers     | ✗        | ✗              | ✗          |
| supplements | ✗        | ✗              | ✗          |
| consumer    | ✗        | ✗              | ✗          |

## Technical Analysis

| Feature             | Status          | Recommendation                                    |
|---------------------|-----------------|---------------------------------------------------|
| Robot.txt           | ✓ Found         | Essential for controlling search engine crawling  |
| XML Sitemap         | ✓ Found         | Helps search engines discover all pages           |
| Schema Markup       | ✗ Missing       | Improves search result display with rich snippets |
| Open Graph Protocol | ✓ Implemented   | Optimizes social media sharing appearance         |
| Favicon             | ✓ Found         | Improves brand recognition in browser tabs        |
| Google Analytics    | ✗ Not Installed | Essential for tracking website performance        |
| DocType Declaration | ✓ Found         | Current: text/html                                |
| Character Encoding  | ✓ Set           | Current: utf-8                                    |

## Server Information

| Metric                  | Value        |
|-------------------------|--------------|
| Server IP               | 188.114.97.6 |
| Server Location         | US           |
| Web Server              | cloudflare   |
| W3C Validation Errors   | 146          |
| W3C Validation Warnings | 0            |

**Links Analysis:** Internal Links: 635 | External Links: 4 | Images without Alt: 2

## Security Analysis

| SSL Certificate  | Details         |
|------------------|-----------------|
| Certificate Name |                 |
| Organization     |                 |
| Expiry Date      | None            |
| HTTPS Redirect   | ✗ Inactive      |
| DMCA Protection  | ✗ Not Protected |

### ■ Security Recommendations:

- Ensure SSL certificate is always up to date
- Implement HTTPS redirection for all pages
- Consider DMCA protection for content security
- Regular security audits recommended

## Performance Metrics

| Metric            | Value | Target | Status |
|-------------------|-------|--------|--------|
| Page Load Speed   | 1.58s | < 2.5s | ✓      |
| CSS Minification  | ✓ Yes | Yes    | ✓      |
| JS Minification   | ✓ Yes | Yes    | ✓      |
| Optimized Plugins | ✓ Yes | Yes    | ✓      |

### ■ Performance Recommendations:

- Optimize and compress images (WebP format recommended)
- Enable browser caching and GZIP compression
- Minimize HTTP requests by combining files
- Use a Content Delivery Network (CDN)
- Defer loading of non-critical JavaScript

## Mobile Usability

| Metric                         | Value             | Status                                |
|--------------------------------|-------------------|---------------------------------------|
| Mobile Speed Score             | 0s                | ✓ Good                                |
| AMP (Accelerated Mobile Pages) | ✗ Not Enabled     | Recommended for faster mobile loading |
| Mobile Rendering               | ✗ Issues Detected | Essential for mobile user experience  |
| Mobile Preview Optimized       | ✗ No              | Affects mobile search appearance      |

### ✓ Mobile Performance is Good:

- Continue monitoring mobile performance
- Test on various devices and screen sizes
- Keep mobile-first design principles
- Regularly update mobile optimization

## Social Media Presence

| Platform  | Status | Link Found |
|-----------|--------|------------|
| Facebook  | X      | No         |
| Instagram | X      | No         |
| Twitter   | ✓      | Yes        |
| LinkedIn  | X      | No         |

**Social Presence Score: 25%**  
**Platforms Connected: 1/4**

■ **Social Media Recommendations:**

- Add social media links to increase brand visibility
- Regular posting increases engagement and SEO benefits
- Use social media for content distribution
- Monitor social signals for brand reputation

## Recommended Action Plan

| Priority | Action Item                                            |
|----------|--------------------------------------------------------|
| HIGH     | Implement HTTPS redirection for security               |
| HIGH     | Add proper heading structure (H1, H2 tags)             |
| MEDIUM   | Implement Schema markup for rich snippets              |
| MEDIUM   | Install Google Analytics for traffic tracking          |
| MEDIUM   | Add alt attributes to 2 image(s)                       |
| MEDIUM   | Consider DMCA protection for content security          |
| MEDIUM   | Fix mobile rendering issues                            |
| MEDIUM   | Fix 146 W3C validation error(s)                        |
| LOW      | Improve social media presence (connect more platforms) |
| LOW      | Consider implementing AMP for faster mobile pages      |
| LOW      | Optimize mobile preview appearance                     |

**Action Summary:** 2 High Priority | 6 Medium Priority | 3 Low Priority

**Next Steps:** Focus on HIGH priority items first for maximum SEO impact.
